Owensboro, KY, 42301

General Comment

This is horrible. 911 is paid for by tax dollars; the elderly, poor, and most at risk shouldn't have to pay telecoms additional money to access our tax funded police forces and emergency services. This rule will lead to peoples deaths from an inability to reach out; only those most at risk will be affected as well. All to avoid crank calls? Ridiculous, dangerous, and morally reprehensible.
